

PROJECT EVALUATION MATRIX

	SCORE	0 - DOES NOT MEET EXPECTATION	1 - MEETS EXPECTATION	2 - EXCEEDS EXPECTATION	COMMENTS
Project Workflow			<p>You completed the user stories, wireframes, task tracking, and/or ERDs, as specified in the project prompt.</p> <p>You've used source control as expected for the phase of the program you're in (detailed in the project prompt).</p>		
Technical Requirements			<p>You delivered a project that met all the technical requirements in the project prompt.</p> <p>Given what the class has covered so far, you built something that was reasonably complex.</p>		
Creativity			<p>You added a personal spin or creative element into your project submission.</p> <p>Delivered something of value to the end user (not just a login button and a CRUD app).</p>		
Code Quality			<p>Followed code style guidance and best practices covered in class, such as spacing, modularity, and semantic naming.</p>		

			You commented your code as suggested in the project prompt.		
Problem Solving			<p>You are able to defend why you implemented your solution in a certain way.</p> <p>You demonstrated that you thought through alternative implementations.</p>
